## ALL NEW Bluetooth Connection to the Webasto SmarTemp Control 3.0 App

Easily download the Webasto App to your device to combine the technology of Bluetooth with the SmarTemp Control 3.0. A quick glance at the App will show ambient temperature for air heater only along with battery voltage, as well as the ability to view full controller settings of Bluetooth connected heater.

Effortlessly manage heater diagnostics with the ability to troubleshoot and clear error codes, as well as reporting capabilities for warranty purposes. Access content, including a list of error codes and heater management tools. Other features include a link to TechWebasto.com for trouble shooting, install/user manuals, service locations and contact information.
